

## Prepare Traffic Management Plans and Traffic Guidance Schemes

### COURSE AIM

- This course will enable you to create Traffic Management Plans (TMPs) as well as design, select and modify Traffic Guidance Schemes (TGS) and conduct inspections.
- To prepare and amend traffic control plans, it is a requirement of SafeWork NSW that you hold a Traffic Control Work Training Card with the class PWZ.

### COURSE CONTENT

- Collect all required information about a given roadwork project to enable the preparation of a TGS
- Design, select and modify a TGS
- Draw up a TGS to recognise other graphical representations
- Incorporate Environmental Management Plans
- Understand speed, environment, type and class of vehicles, traffic density, sight lines, environmental condition, weather patterns and surface type
- Conduct an onsite check and inspection of the plan and to identify any unexpected hazards/risks

### UPON COMPLETION

- Upon successful completion, participants will receive a Nationally Recognised Statement of Attainment and a card issued by SafeWork NSW.

### UNIT OF COMPETENCY

- RIICWD503E - Prepare Traffic Management Plans and Traffic Guidance Schemes
- RIIRIS402E - Carry out the Risk Management Process

### DURATION
